Subject: General Updates: Update on geopolitical developments in the Gulf region

Redington Limited ("the Company") wishes to provide an update to its investors and stakeholders regarding the ongoing geopolitical developments in the Gulf region.

The Company has been informed by its step- down subsidiary, Redington Gulf FZE, that due to the ongoing geo-political tensions, its operations in the Gulf region are pursued in a restricted manner, due to the following reasons:

- Re-routing of shipments and closure of major ports/airspace resulting in increased transit time
- Requirements for increased working capital due to higher inventory and requests from customers for delayed payments. The business is prioritizing the need for capital preservation.
- Increase in freight, insurance and logistics costs.
- Revocation of war risk coverage by insurance providers for companies operating in the region; alternative arrangements are currently being evaluated.

The safety and well-being of Redington's employees remain a top priority. The Company has implemented enhanced safety protocols and business continuity plans across affected locations and continues to operate in full compliance with all applicable international regulations, trade restrictions, and sanctions. Given the dynamic nature of the situation, Redington's senior management is actively monitoring developments and will take all appropriate actions as necessary.

At this stage, it is not possible to reliably quantify the financial impact, since the same would depend on the duration and intensity of the situation. The Company will continue to closely monitor developments and keep stock exchanges informed of any material updates.

We request you to kindly take the above information on record.

For Redington Limited

**K Vijayshyam Acharya
Company Secretary**
