# UNLOCK NEXT IN TECHNOLOGY WITH REDINGTON

Redington is a leading technology solution provider with a presence across 40+ markets. We support brands in their expansion and distribution journey with 75,000+ strong network of channel partners.

## OEMs/Brands

Partner with Redington to accelerate your distribution journey, unlock new markets, and drive global scale digital transformation.

## Channel Partners

Unlock growth with Redington and increase revenue through financing support, partner enablement programs, and end-to-end logistics.

## Enterprise Customers

Redington-backed partners deliver secure, scalable, and trusted technology solutions, accelerating digital transformation journey.

# ABOUT REDINGTON AT A GLANCE

40+

Countries

450+

Brands

75,000+

Channel partners

At Redington, our vision is to **UNLOCK NEXT** by enabling technology transformation through our digital-first approach. We support brands to scale into new markets through simplified distribution, help channel partners expand and grow revenue, and enterprises to accelerate digital innovation.

# WHY PARTNER WITH REDINGTON?

01

## 450+ Global Technology Brands

Partner with us and grow your business with 450+ leading tech brands. Drive transformation for your customers and enterprise consumers with hardware, software, IT/ITEs, cloud, security, networking, mobility, printing and more solutions.

02

## Presence across 40+ countries

We support partners in seamless expansion across borders with footprints across 40+ countries. Accelerate reach across India, Middle East, Turkey, Egypt, Africa, South Asia, and South-East Asia.

03

## Inventory Risk Management

With 182+ warehouses, Redington offers inventory management for partners through optimized stock levels, minimize obsolescence risk, and adjust the stocks via data-driven forecast and market changes.

04

## Agile logistics and supply chain

Drive business growth and seamless execution of delivery through our robust logistics and supply chain practices. We offer partners customised logistics services, drop shipment, and consistent delivery.

05

## Credit and financial solutions

Avail a range of tailored financial solutions to grow business operations and revenue. From credit access in 48 hours with flexible 30-90 days terms.

06

### **Partner enablement programs**

Designed to equip our channel partners with tools, knowledge, and resources through training, upskilling programs, and certifications.

07

### **GTM Initiatives**

Redington has pioneered GTM strategies enabling partners to understand market dynamics, scale business, and generate higher revenue.

08

### **Online Platforms**

Redington Online – an exclusive e-commerce platform for partners for seamless order placement and credit enablement. Partners can now scale up cloud solutions for customers across the globe through CloudQuarks – a unified marketplace for cloud.

09

### **Marketing Support**

Reach more customers with our tailored and value-added marketing support. With our marketing-as-a service, accelerate sales and reach with market campaigns.

10

### **Pre- and Post-Sales Support**

Power your business growth with our team of pre and post sales experts. We help create pipeline and expand customer reach via demand generation, events, and backed by strong sales support.

11

### **Operational Excellence**

Achieving best-in-class performance through AI-driven process optimization and technology integration. This includes simplifying, standardizing, and automating processes, while enabling analytics and digital convergence through seamless integration of vendor and partner platforms and ERPs via APIs and EDIs for efficient data flow.

# PORTFOLIO

## SSG (Software Solutions Group)

An ecosystem orchestrator enabling the comprehensive digital transformation lifecycle, empowering businesses to choose, adopt, secure, and scale solutions across cloud, software, security, services and AI.

## ESG (End-Point Solutions Group)

Diverse portfolio spans desktops, laptops, All-in-One PCs, Workstations, tablet PCs, printers, supplies, gaming products, Lifestyle devices, Accessories and more from top tech brands.

## TSG (Technology Solutions Group)

Technology Solutions Group (TSG) delivers integrated technology solutions across Compute, Storage, Networking, Collaboration, Security, and Power. Our portfolio supports both enterprise and mid-market businesses, enabling partners to design, deploy, and manage complex IT environments as well as scalable solutions for SMBs, government, and project-based requirements. From data centers to collaboration ecosystems, TSG empowers digital transformation across industries.

## MSG (Mobility Solutions Group)

Wide portfolio of world-class brands and products across smartphones, wearables, and accessories from leading brands. Support through buy-back schemes, financing programs, demand generation, and sales support.

## RSG (Redington Sustainability Group)

Focusing on sustainability in tech and CSR, the group consists of 4 verticals – solar, circularity (refurbished devices and recycling), CSR, and ESG. The group focuses on bringing balance to business with activities that help the community and environment grow.

## Digital Printing

Driving digital transformation by partnering with leading brands. Manages sales, services, and support for these solutions catering to commercial, photo labels, packaging, and entry-level segments. Helps enterprises and startups in adopt sustainable digital printing technologies.

## 3D Printing

Delivers integrated additive manufacturing solutions that drive manufacturing excellence. We support organizations across the complete value chain—from technology implementation and material optimization to production workflow integration.

# PRODUCTS AND SOLUTIONS

An extensive portfolio of products enables seamless digital transformation and frictionless adaptation to innovative, advanced technology.

## PCs, Laptops, Tablets

Commercial and consumer PCs, desktops, laptops, All-in-One PCs, Workstations and tablets from world's leading brands.

## Printers and accessories

Range of printers along with consumables like toners, ink cartridges, etc.

## Lifestyle accessories

Consumer lifestyle products like smart home assistants, headphones, wearables and more.

## Mobility/Smartphones

Pioneered effective GTM for world's leading brands across smartphones and mobility.

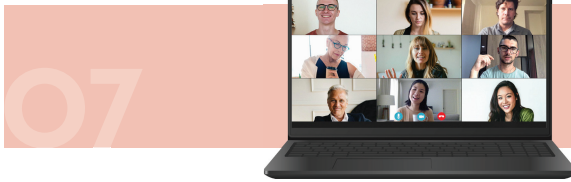

## Networking

A complete suite of end-to-end networking solutions for IT support, enterprise, data centre and cloud environment—from switching, routing, and wireless to advanced Software-Defined Networking (SDN).

## Security

Comprehensive security solutions spanning Identity, Data, Applications, Network, Cloud, and Endpoints enabling secure access, zero-trust enforcement, workload protection, and data integrity across hybrid and multi-cloud environment.

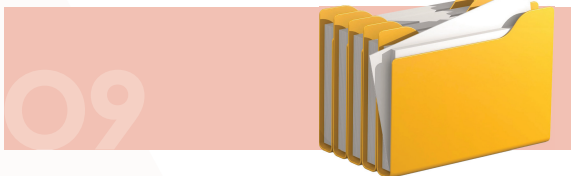

## 07 Collaboration

Unified communication and collaboration solutions enabling seamless interactions across voice, video, conferencing, contact center, and productivity platforms.

## 08 Data Center

Data center modernization solutions with cloud capabilities through strategic partnerships with AWS, Azure, and Google Cloud for all organizations.

## 09 Compute and Storage

Robust server, compute and storage infrastructure solutions that help build optimal data strategies, enhance compute efficiency, and support modern cloud-enabled environments.

## 10 Power

Reliable power infrastructure solutions offering UPS systems, power backup, precision cooling, and energy management solutions. Designed to ensure uninterrupted operations, protect critical IT infrastructure, and support data center and enterprise environments.

## 11 Enterprise software

Comprehensive suite of enterprise-grade software including computing infrastructure, databases, OS, analytics, AI, CRM, ERP, Marketing, Operations, Security Solutions, Advanced Design and Product Development Tools – delivered via flexible subscription and licensing model.

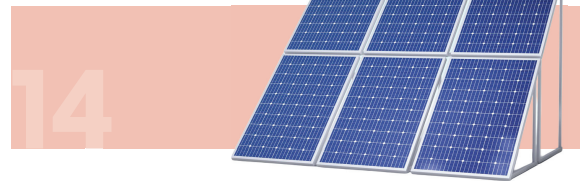

## 12 Cloud Solutions

Through strategic partnership with world's leading hyperscalers (AWS, Microsoft (Azure, D365, MWS), Google Cloud), we deliver cloud infrastructure, lifecycle-managed cloud services, productivity platforms, and wide range of SaaS applications. This includes CRM, ERP, Marketing, Analytics, and department-specific solutions across Product, Marketing, Operations, Finance, and HR.

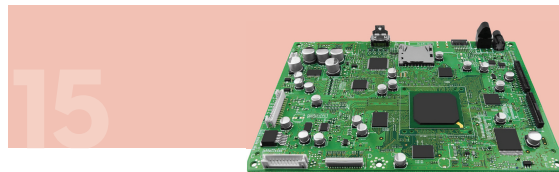

## Gaming Products and Accessories

Comprehensive range of gaming products including consoles, gaming PCs, gaming accessories and more.

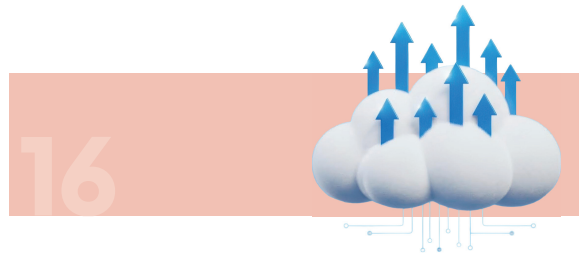

## Solar Solutions

Redington's B2B and B2B2C models provide innovative solar products like rooftop panels enabling solar power and green energy adoption.

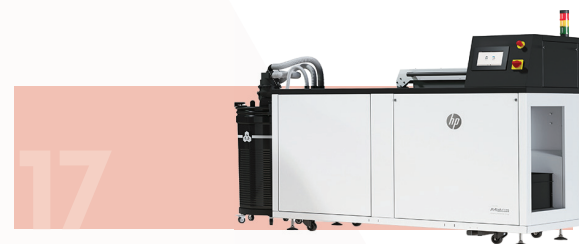

## Circularity

Circularity works by building reverse logistics of laptops and other hardware. Hardware is either refurbished and sold through a separate line of channel partners or sent for recycling.

## Cloud Services

Full spectrum cloud services portfolio spanning consulting, migration, modernization, security, data, AI, DevOps, DevSecOps, and managed services. Built to help organizations scale, innovate, and achieve measurable impact while complementing cloud capabilities across cloud lifecycle.

## Digital Printing Solutions

Cutting edge printing solutions through Industrial & Production printers. 3D printing supports industrial manufacturing demands, encompassing high-performance polymer-based systems and precision metal additive manufacturing technologies.

# SERVICE PORTFOLIO

## 01 Cloud Service Stack

Redington offers a full-spectrum cloud services portfolio and make cloud solutions accessible to businesses of all sizes through strategic partnership with world's leading hyperscalers, SaaS, and ISVs.

Here is the flow of the stack implementation:

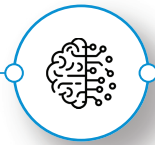

### Cloud Architecture

- Cloud Advisory
- Cost Optimization
- Cloud Economics (TCO/ROI)
- Assessment Services
- IT Infrastructure Assessment and Strategy

### Cloud Migration Services

- Physical Server to Cloud Migration
- Hyper V/VMMare
- Application Migration
- Landing Zone Accelerator
- Backup & Disaster Recovery
- Inter-Cloud Migration
- Subscription Services
- SAP Migration

## Data Analytics & AI/GenAI

- Data Engineering
- Data Warehousing/Data Lake/Lakehouse
- Data Pipeline
- Business Intelligence
- Cognitive AI (ICV, NLP, Facial, VA, Chatbots)

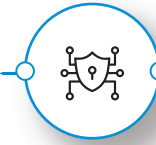

## Cloud Managed Services

- 24x7 Multi Cloud Managed Support
- Subscription & Configuration Management
- Application Performance Monitoring
- Cloud Health Monitoring
- Configuration Management
- Database Monitoring
- Remote Work from Home (WFH) Solutions

## Modernization

- Containers & Micro-services
- DevOps
- Artificial Intelligence (AI) & Machine Learning (ML)
- Internet of Things (IoT) on Cloud
- IaaS to PaaS transition
- Hybrid Cloud Management
- Database Migration

## Security

- Network Security
- Data Security
- Identity Threat Detection & Protection
- Vulnerability Assessment & Management
- Log Analysis on Cloud
- Cloud Security
- SIEM, SOAR, VAPT
- Privilege Access Management
- Security Management, Governance & Compliance

## Vertical Solutions

- Manufacturing: IoT Devices + Analytics, SAP
- BFSI: Modern Workplace (Collaboration, Remote Working)
- Healthcare: Data Analytics & Security Governance
- Government: SmartCity (Smart Metres, Data Center Migrations)
- Education: Digital Classrooms, Virtual Labs

# Cloud Core Services

Architecture Services	Professional Services	Managed Services	Enterprise Support/TAC	Project Based Delivery
Cloud Strategy and Roadmap	Platform Build & Migration	Monitoring & Alerting	AWS PLS	Cloud Network & Connectivity Setup
Architecture Assessment	PaaS Migration (Refactor, Re-Host, Re-Architect)	Cloud Governance	MS CSP	Cloud Security Baseline Hardening Implementation
Well Architected Review	Cloud Security Implementation	Access Management	Google PLES	DR & Resilience Implementation
Business Case & TCO Analysis	DevOps Implementation	Backup Management	SaaS Support – Freshwork, Gitlab etc.	Cloud Automation and DevOps
Cloud Security Strategy and Roadmap	AI Platform Implementation	DR drills		Landing Zone Implementation
		Cost Optimization		

## 02 Security Stack

Redington enables organizations to stay secure in an evolving threat landscape with a broad portfolio of enterprise security solutions designed for today's digital, cloud-first, and AI-driven environments. Backed by certified security experts, we help assess risk, design the right security architecture, and deliver solutions that protect identities, data, applications, networks, cloud, and endpoints—ensuring resilience, compliance, and business continuity.

### Emerging Services

AI-based security threats, Supply Chain Security Management, Non-Human Identity Usage.

### MSSP/SOC Services

MDR/XDR Configuration & Management, Threat Intelligence, Brand Protection

### Core/Basic Services

Perimeter, Networking, Email

### Governance, Risk and Management

Compliance Management, Audit and Assessment

### Specialised Services

Zero Trust Architecture Configuration, MFA Creation, IAM Services

# Tailored SOC Solutions

## Service Coverage

- Cloud security Posture Management (CSPM)
- Cloud Workload protection Platform (CWPP + Containers)
- Cloud Asset Discovery
- Vulnerability Assessment and Management
- Cloud Infrastructure Entitlement Management (CIEM)
- Identity Governance and Administration
- Privileged Access Management
- User Lifecycle Management

## Secure COMPLETE

## A-la-Carte

Based on Customer Requirement

Secure Complete +  
Dev Sec Ops.  
Run time Security.  
App Security (SAST).  
Just In Time

## 03 Server and Storage Stack

Redington delivers comprehensive server and storage solutions with a wide portfolio of global brands. The innovative offering includes a range of services including deployment, storage migration, data protection, virtualization, SAN switch integration, and cost optimization. Services extend to private cloud strategy, architecture assessment, and seamless integration with network and security infrastructure.

### Architecture Services

Assessment; On-Prem security strategy and roadmap

### Managed Services

Network monitoring and alerting; cost optimization

### Project – based Delivery

Deployment, Virtualization, SAN Switch

### Professional Services

Data protection, storage migration, HCI migration, Installation

### Enterprise Support/TAC

MSSP support

## 04 Software Service Stack

Redington's software stack delivers end-to-end deployment, integration, and lifecycle support across enterprise applications and platforms. From DevOps enablement and automation to security hardening, monitoring, and governance, the focus is on building resilient, scalable environments. Backed by managed services, enterprise-grade support, and strategic advisory, it accelerates secure, future-ready digital transformation.

### Architecture Services

Private Cloud Strategy and Roadmap

### Enterprise Support

TAC Support

### Professional/Managed Services

Deployment; Operations and Managed Services; Data Protection, HCI

### Project – Based Delivery

Deployment

## Financial Solutions Offerings

Redington provides a comprehensive suite of credit and financing solutions tailored to support channel partners' growth.

### Channel Financing

Get quick, unsecured and collateral-free channel financing with Redington. Close deals faster with unsecured, collateral-free, flexible 30 – 90-day terms. Financing through multiple banks & NBFCs at competitive interest rates.

\* For partners associated with Redington for 1 year

### Project Financing

Avail long-term financing at competitive interest rates through banks & NBFCs.

\*Applicable for large-value projects

### MSME Funding

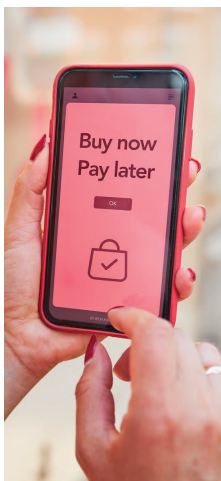

Get EMLs at competitive rates with higher funding tenure, as per customers' requirements.

\*Only applicable for solar business

### CUG Cards

Credit card based financial with no additional cost for partners. Applicable on digital platforms and link-based payment gateways with customizable billing cycles.

### Buy Now Pay Later

Ultra short financing of up to 45 days at no additional cost. Instant financing solutions through digital platforms/offline modes.

### Leasing

Long-term solution to financing up to 3 years. Financing & OpEx leasing through NBFCs at competitive interest rates

## Pre-Sales Support Offerings

Redington brings a ready-to-deploy pre-sales capability that helps partners move faster from opportunity to closure. Our certified technical consultants work closely with partners and customers to understand business challenges, shape the right solutions, and build strong, winning proposals across enterprise deals. We act as an extension of partner sales teams, supporting complex opportunities with technical depth, commercial clarity, and strong solution positioning.

**01** Joint lead generation activities

**02** Solution design, BOQ preparation, and commercial structuring

**03** RFP and SOW preparation support

**04** Product demos and POC assistance, including POC appliance arrangement

**05** Technical consultation and advisory support

**06** Sizing, configuration, and architecture validation

**07** Sales and pre-sales enablement, including partner & customer meetings

**08** Trainings for sales, pre-sales, and technical teams

**09** Joint customer meetings and solution positioning

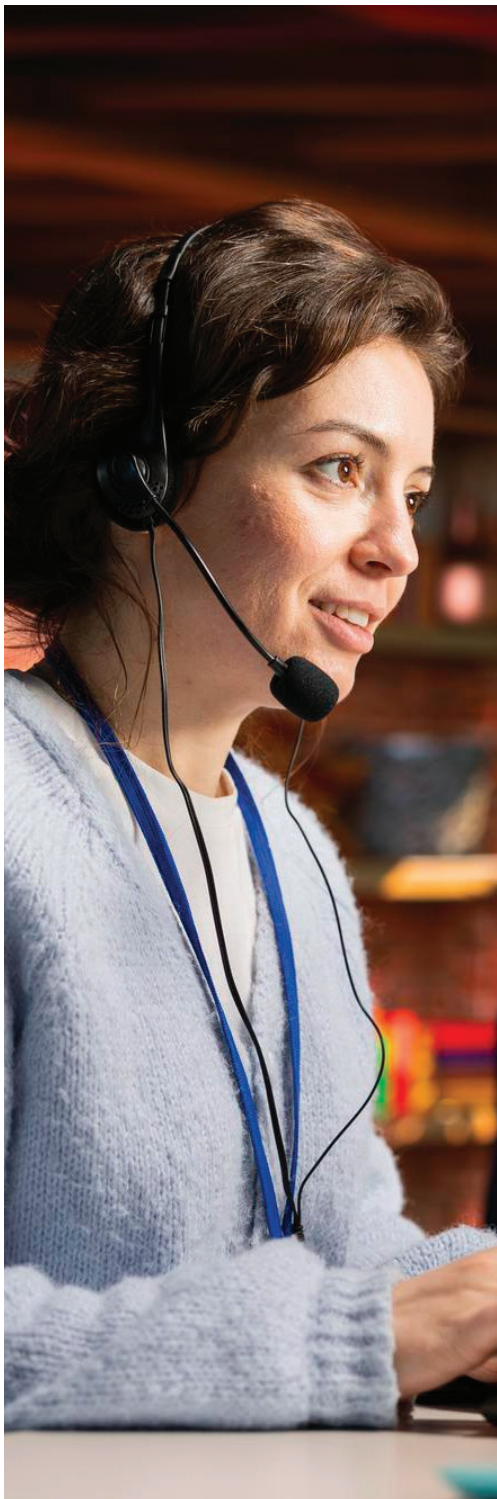

**10** License management, renewals, and subscription optimization

07

## Post-Sales Support Offerings

Redington supports partners and helps them strengthen their customer relationships through effective long-term business strategy. Our combined trusted vendor recommendations with best practices in industry delivers these effective post sales solutions:

- Technical architecture analysis services for solution planning and architecture
- Deployment services including implementation and migration
- Project-based engagements tailored to customer requirements
- OEM enterprise support for critical business applications and platforms
- Support services with SLA-based models – Remote/Online, 8x5 or 24x7
- Periodic vulnerability assessments (quarterly, half-yearly, annually)
- Managed services across Endpoint, NOC, SOC, and SIEM – monitoring and management
- Proactive health checks, patch management, and preventive maintenance
- Network optimization and performance tuning
- Troubleshooting and incident resolution
- Professional customer training and enablement
- White-labelled cloud managed services to support partner-led delivery

## Project Business Offerings

Redington provides a dedicated team to help partners qualify bidding opportunities for large private sector and government projects. Supports end-to-end project execution with the following services

### Commercial Services

- Dedicated project management team for end-to-end project execution
- Industry, vertical, SI and customer focused account managers
- Pre-qualification criteria, other commercial elements of the bid
- Competitive project financing solutions
- Logistics, 3PL services and reverse logistics (RL) support
- Third-party products and services

### Technical Services

- Extensive pre-sales technical support
- Architecture design, analysis & managed services (cloud, cybersecurity)
- Deployment & professional services
- Public/hybrid cloud technology services

# Enterprise Technology Offerings

Redington's in-house team of expert engineers ensure customers get full support and best available solutions/services under the same roof.

<b>Enterprise-as-a-service</b> 	<ul style="list-style-type: none"><li>· Infrastructure-as-a-service</li><li>· Storage-as-a-service</li><li>· Network-as-a-service</li></ul>	<ul style="list-style-type: none"><li>· Device-as-a-service</li><li>· Security-as-a-service</li></ul>

10

## Data & AI Stack

Redington enables businesses to move from data readiness to AI-driven outcomes by aligning use cases, platforms, and infrastructure at scale. Our Data and AI capabilities support productivity, customer experience, operational reliability, security, and cost efficiency by enabling AI across user experiences, enterprise platforms, and core infrastructure. We enable flexible, scalable, and secure AI adoption through hyperscalers and private cloud environments.

### Our AI Framework: Three Core Themes

#### AI for Experience

- Employee productivity - Copilot
- Enterprise knowledge assistants (RAG)
- Customer support: Agent assist
- Content summarization & drafting

#### Typical outcomes

Cycle-time reduction, higher containment, faster onboarding.

#### AI Powered UXP

Intelligent Diagnostics, AI Assist, Conversational Intelligence

#### AI for Platform

- AIOps: anomaly detection & correlation
- AI powered Security Threat mgmt., SOC, end point protection.
- Intelligent runbooks & auto-remediation
- SLO/SLA insights & prioritization

#### Typical outcomes

Lower MTTR, fewer escalations, more stable operations.

#### AI Driven Reliability

AI Assisted, Security, Observability, Support, Asset Intelligence, Smart Chaos - Leveraging GenAI

#### Infrastructure for AI

- Hybrid / private AI platform enablement
- Secure data + RAG foundations
- GPU pod sizing + performance engineering
- FinOps + lifecycle operations for AI

#### Typical outcomes

Faster deployment, improved compliance, predictable cost.

#### Democratized AI

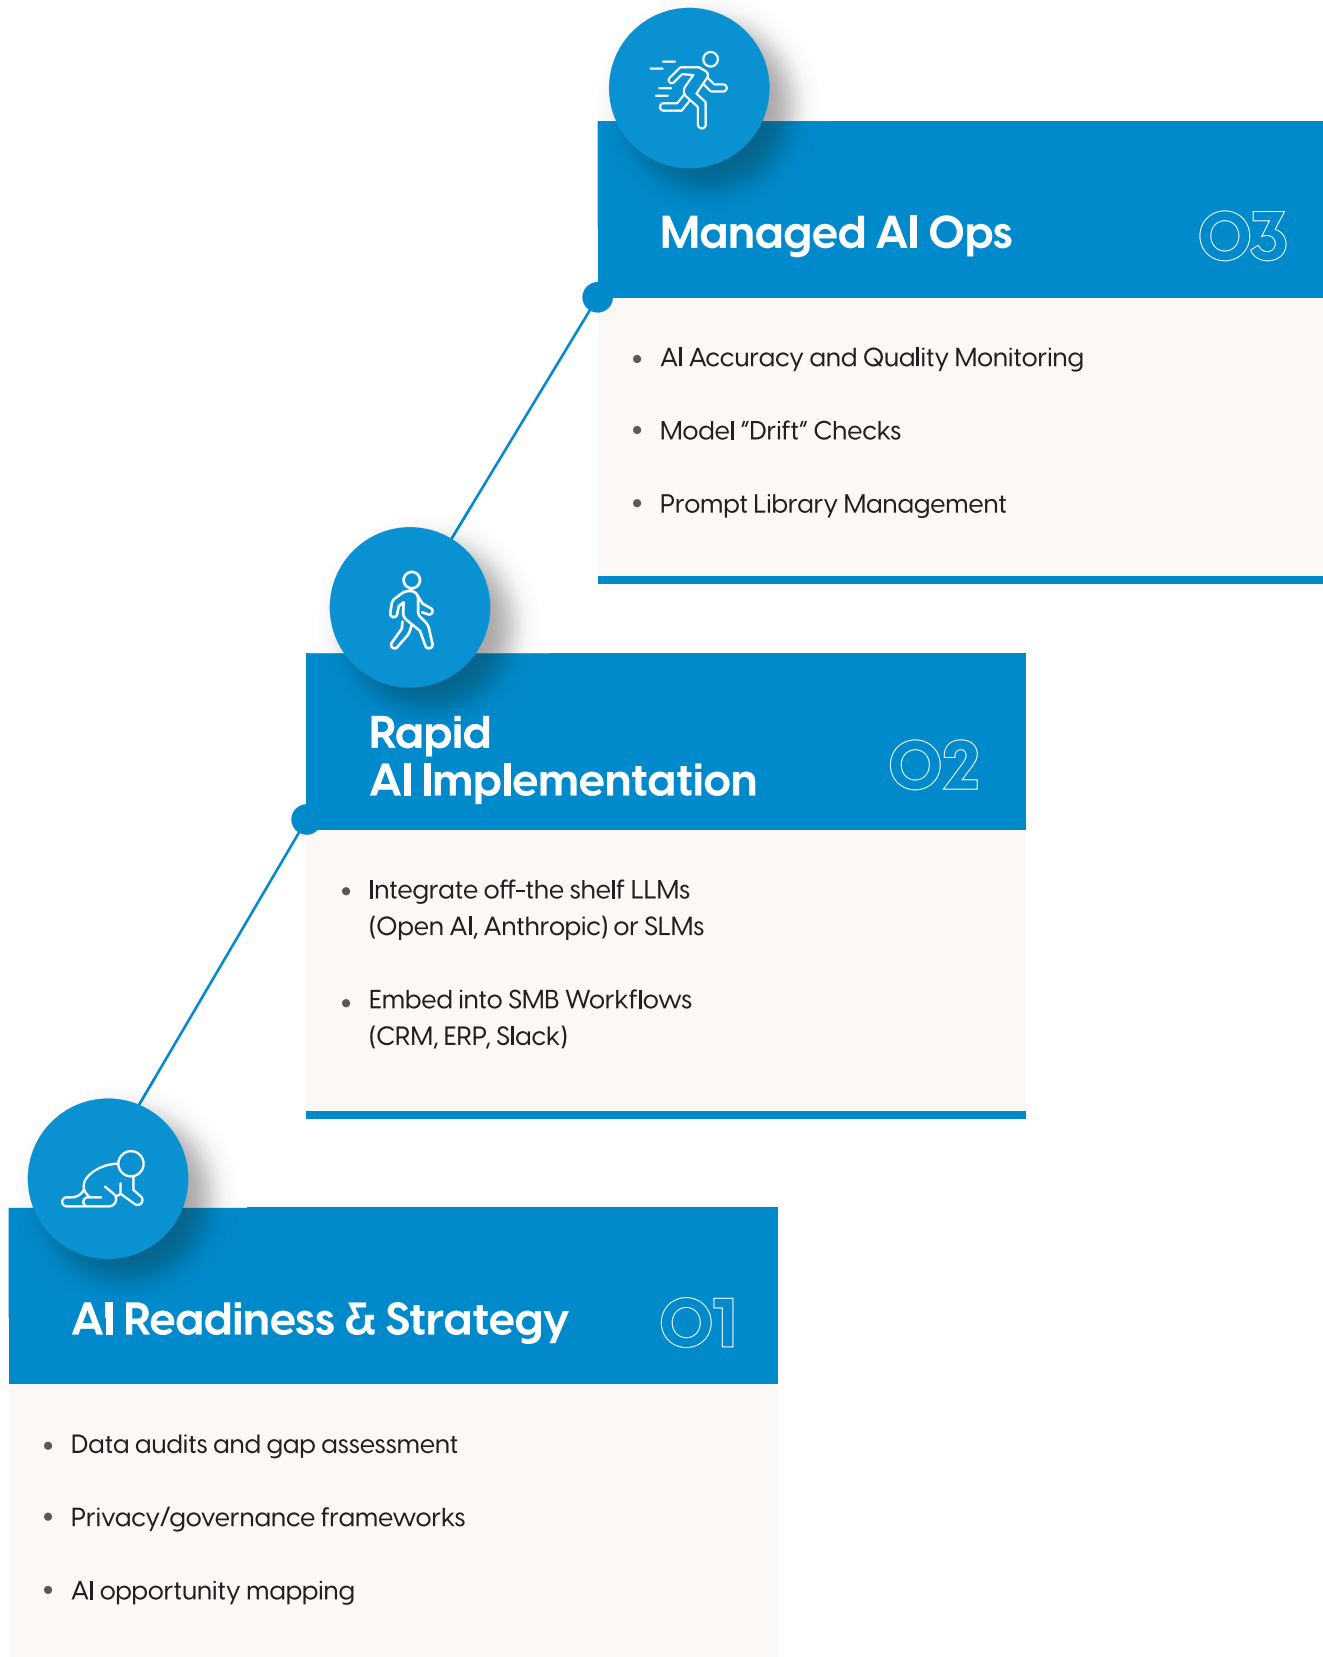

Accelerate AI Deployment, Accelerate PoC, Use Case Centric Guardrail as a code provisioning

# Our Approach to Data & AI Solutions

Responsible AI: Governance | Transparency & fairness | Privacy & Security | Human oversight

# Redington's AI Orchestrator Model (Crawl > Walk > Run)

11

## Marketing Offerings

Dedicated team for planning & executing marketing campaigns

Creating, planning, and executing joint events

Telemarketing and demand generation

Digital marketing campaigns

Social ORM services

12

## Import, Re-Export, and FTWZ Offerings

Distributed across all major global commercial centres, our team is uniquely positioned to handle such opportunities. This is highlighted by the fact that over 300 customers have signed up for dedicated credit limits from our Singapore branch. We also go a step further to offer other flexible financial terms – Usance LC, DTB, FoB/CIF shipments, multi-brand shipment consolidation, customised packaging etc.

## Redington offers a dedicated team for partners who are:

- Located in SEZ & STPI Locations with Special Duty/GST Benefits
- Located in SEZ & STPI Locations and Looking to Purchasing in INR
- Looking for Delivery Outside India (HPE)

# Digital Platforms for Partners by Redington

**Redington Online** – Automated B2B e-commerce for partners with easy order, credit, and brand access. Our partners benefit from the online platform with:

24 x7 seamless transaction

Fully automated platform

Manage order cycle end-to-end

Drop shipment support

Real-time analytics

Raise bids for special pricing

Analyse purchase history and monitor buying patterns

Digital onboarding with instant credit limit

Easy availing of credit

Hassle-free registration

Easy and instant order placement

Dashboards with 360-degree view

Optimized inventory management

Scalability beyond boundaries

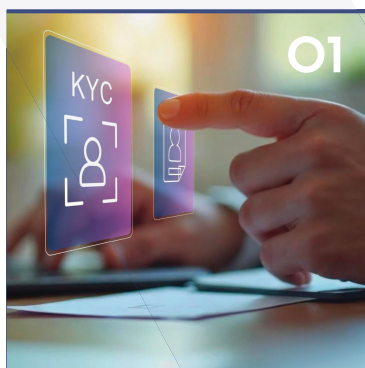

Growth acceleration programs

Digital channel master data update

# Simple Steps to Digital Success

01

## Registration and Set-Up

Guided KYC Verification, configure payment methods and interactive tour.

02

## Make First Transaction

Real-time support and full assistance through product search, cart management and set-up.

03

## Unlock Advanced Features

Discover bulk ordering, saved product lists, and comprehensive reporting dashboards.

04

## Full Platform Integration

Get automated reordering, customised notifications, and tailored workflows for your business.

## Quick Contact

Platform Support:  
**9940555925 (9 AM to 11:59 PM)**

WhatsApp Support:  
**+91-7395808630**

Email:

# CloudQuarks

Unified cloud marketplace for partners with access to hyperscalers, cloud solutions, and subscription management.

- Aggregates cloud licensing vendors and ISVs
- Comprehensive cloud licensing and products catalogue
- Intelligent product recommendations
- Quick provisioning of subscriptions through vendor APIs
- Real-time view of active subscriptions with expiry date
- Renewal reminders for partners
- Billing management as per personalised credit terms
- Smart cloud monitoring dashboard
- Alerts on anomalies, breaches, and security threats
- Redington cloud registration and on-boarding
- Seamless partner-vendor registrations
- Activate order placement for end customers
- Digital onboarding with instant credit limit
- Dashboards with 360-degree view

## Autodesk Portal

Fully automated platform seamlessly integrated with the Vendor Portal, enabling partners to manage the entire order cycle with ease.

- 24 x 7 seamless transaction
- Fully automated platform integrated with Vendor Portal
- Manage end-to-end order cycle
- Check Realtime Assignment and Utilization with enhanced analytics
- Timely Reminders and Alerts
- Partner Dashboard with 360-degree view.

## Whatsup

Sales insight application enabling smooth sales across organization with end-to-end management of invoicing and partner access.

- Customized 360-degree dashboard
- 24/7 support for partners
- Single Click search for stocks
- One-click approvals
- All reports under one tab
- Sales Analytics
- Invoice management
- Insight on order clearance

# Support Solutions for Partners by Redington

## ProConnect Logistics

Automated distribution centers with tech-enabled logistics, supply chain, and warehousing services.

## Redserv Global Solutions

Comprehensive IT and business services for partners globally.

## Drop Shipment Offerings

Redington offers drop shipment to partners, ensuring timely delivery to end customers.

## Direct-to-Retail (D2R)

Redington supports partners with D2R supply chain for seamless logistics and quick delivery of the products.
